DE-NESTERS

Designed to pick and place empty packages onto a packing conveyor **quickly, accurately, and efficiently.**

We can **turn or flip** the package into the desired position, as well as add **vibration** to settle food within.

# Over 50 Years of Experience

Could you benefit from our automation services? Our Automation team provides **reliable and effective solutions** with an in-depth evaluation process. This experienced team of automation specialists identifies areas of opportunity for increasing efficiency, providing room for growth and increased sales **resulting in greater profits.**

Closing solutions for any of our clamshell packages at speeds **up to 200 units per minute**, with user friendly controls making it easy to switch between jobs.

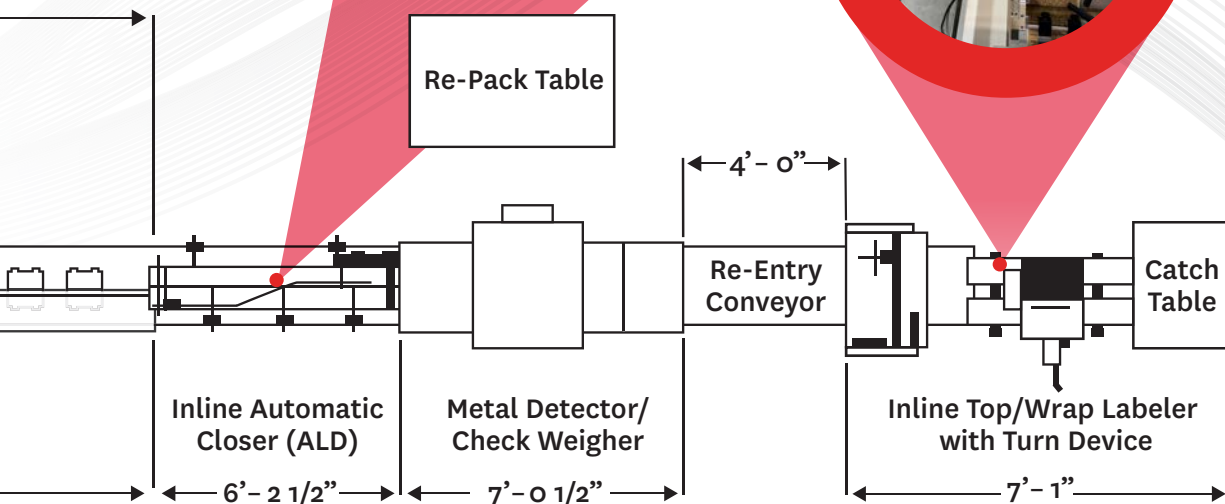

HIGH SPEED CLOSERS

LABELING SYSTEMS

Our integrated systems can date-code and apply labels in various configurations to make packages **tamper evident and secure.**

We can develop an entire packaging line or design around existing equipment.
