# reborn at InlinePlastics®

## PACKAGING FOR A BETTER PLANET

Inline Plastics is the first thermoformed food packaging manufacturer to utilize post-consumer content made with cutting edge technology called Advanced Recycling.

We call this PET material rDPET (recycled Direct to Sheet PET). Through our 'reborn' process, all of our PET products are made with 10% post-consumer content.

\*Products may not be recyclable in all areas yet; please check locally

### By using rDPET™ vs. traditional PET, Inline Plastics...

Diverts over **1 Billion** water bottles

from the ocean and landfills annually

Generates over **50% energy savings** when producing rDPET™

=

Decreases carbon footprint equivalent to **112,000 acres** of forest per year

or

Saves greenhouse emissions equal to **233 million miles driven**

*rDPET™ is a high performing food-grade packaging material reborn with 10% post-consumer content and the lowest carbon footprint on the market today*
